

St George Community Association

Community Notice Boards

The tables below lists community notice boards across the St George area from Crews Hole to Speedwell and Church Rd to Two Mile Hill and the boundary with South Gloucestershire. The majority of them are owned by Bristol City Council whilst others are owned by community based groups, housing associations or churches.

Community notice boards require frequent updating in order to make them attractive, relevant and most importantly remain an effective tool to disseminate information. They need someone to ensure that they are free from clutter and abuse. Community notice boards which are maintained by local residents/community members are much more effective and clutter free than those relying on employees of large organisations. The challenge is to find volunteers willing to take on this role.

If you would like to volunteer to keep two or more noticeboards up to date please email comms@stgeorgecommunity.org.uk or telephone 0117 947 5037
